Art, in one form or another, has been a life long journey of study. I have worked in oils, acrylic, pastel, pen and ink, collage and glass but my medium of choice is watercolor. I love its challenge every time I pick up a brush. I work mostly in a studio atmosphere but enjoy getting out and painting plein air. My favorite subject matter is still-life that involves color, pattern, shadow and light. I am constantly looking for new challenges within subject matter and look for interesting perspectives of the subject matter I choose to paint. My painting education has taken me all over the United States, Canada and most recently, Ireland. I very much enjoy the combination of art and travel. Painting continues to be a learning and growing experience for me.

Formal Education: Bachelor of Science in Biological Sciences, University of California, Irvine
Master of Arts in Teaching, Loyola Marymount University
