About the Artist

My style and passion for painting comes from the impressionist painters. My focus is using intense colors and shadows to bring the paintings to life. My intention is to let the viewer walk on the path in the painting or sitting on a nearby bench enjoying the view. I enjoy painting subjects of beauty. My still lifes should bring joy to the viewer. My works are still life and landscapes done in oil. I enjoy the outdoors and plein air painting. Painting has engaged my senses and the way I look at the world. It is a lifelong learning opportunity. I have studied with Randy Blasquez and Susan Sarback, School of Light and Color.
